

## Just some of the many positive comments from the CELTA course at TLC – The Language Company January – April 2008:

'I loved the course, the tutors, the TLC support and the way things were done. I learned a lot, met great people and will cherish the memory.'

Philip Tedder

'We had such an experienced and varied set of tutors/teachers which opened up the world of teaching for us. It was extremely useful and insightful. Each assignment had us using a combination of skills.'

Manisha Dadlani

'I was very pleased with my decision to do the CELTA in 12 weeks instead of 4 - which would absolutely not be enough time to reflect. I was pleased with the centre. The tutors were honest and gave constructive feedback during the TP (teaching practice) sessions. The location is good – so near the train station.'

Joanna Barundun

'Friday Saturday- great combination – reduced the stress of childcare. The observations were one of my favourite parts of the CELTA. I enjoyed learning the theories in class then watching the teachers in action. It was a very good learning experience. I was impressed with the tutors' ability to answer questions thoroughly and knowledgeably. All three tutors have a wide range of knowledge'.

Naree Rüegg-Jones

'The CELTA course was one of the most challenging, and enlightening learning experiences I have ever had. I feel very privileged to have completed this course with John, Helen & Sandra and learn so much from their vast collective knowledge and experience.' I have recommended this course to all my friends and colleagues interested in teaching English.'

Michelle Eliasek

'It was such a pleasure working in such a positive and friendly environment. It is truly sad that a wonderful CELTA course must come to an end. Aside from our wonderful teaching team and great learners, our Teaching Practice teams and group as a whole have been super. I will spread the word! I truly enjoyed the course!'
